Federal State Budgetary Educational Institution of Higher Education "Privolzhsky Research Medical University" Ministry of Health of the Russian Federation

WORKING PROGRAM

Name of the practice: PHARMACEUTICAL PROPAEDEUTICAL PRACTICE

Specialty: 33.05.01 PHARMACY

Qualification: PHARMACIST

3 ,

1.4

÷.,

3 ,

Department: MANAGEMENT AND ECONOMICS OF PHARMACY AND PHARMA-CEUTICAL TECHNOLOGY

Mode of study: FULL-TIME

Nizhny Novgorod 2021 The working program has been developed in accordance with the Federal State Educational Standard for the specialty 33.05.01 PHARMACY, approved by Order by Order of the Ministry of Science and Higher Education of the Russian Federation No. 219 of March 27, 2018.

Developers of the working program:

Maxim Alekseevich Mishchenko, PhD in pharmaceutical sciences, associate professor of the Department of management and economics of pharmacy and pharmaceutical technology.

The program was reviewed and approved at the department meeting (protocol No. 9 of 29.04.2021).

Acting head of the Department, PhD in pharmaceutical sciences

I.V. Spitskaya (signature)

AGREED Deputy Head of the EMA

L.V. Lovtsova (signature)

1. The purpose and objectives of practice.

1.1. The purpose of practice – participation in forming the following competencies: – universal competencies (UC-6).

1.2. Tasks of the practice – as a result of the practice, the student should

Know:

- basic concepts and professional terminology related to the specialty 33.05.01 Pharmacy;

- the system of training pharmacists under the specialty program 33.05.01 Pharmacy and the system of postgraduate education;

- directions of professional activity of the pharmacist in various fields of modern pharmacy and medicine;

- the possibilities of the socio-cultural environment of the educational organization;
- methods of effective time planning;
- potential strengths and weaknesses of the individual;
- effective ways of self-learning;
- criteria for assessing the success of the individual.

Be able to:

- draw up long-term and short-term plans;
- analyze life situations and set priorities;
- organize your time;
- form a portfolio;
- plan your professional trajectory;
- plan your life for the period of study in an educational organization;
- identify obstacles that prevent success;
- assess your competitiveness.

Possess:

– name and their prices

- skills to independently identify motives and incentives for self-development and education throughout life, while defining realistic goals for professional growth;

- skills in determining and implementing the priorities of their own professional activities and ways to improve them on the basis of self-esteem and continuing education.

2. Position of the practice in the structure of the General Educational Program of Higher Education (GEP HE) of the organization.

The practice refers to the core part of Block 1 of GEP HE, it is held in the 1st year in the 2nd semester according to the schedule.

Type of Practice: academic

Way of practice conducting: stationary/onsite.

Form of practice: continuous.

Total labor intensity of practice: 2 credit units (72 academic hours).

Duration of practice: 1 1/3 weeks.

3. Deliverables of mastering the academic discipline and metrics of competence acquisition.

The practice is aimed at acquiring the following universal competences (UC):

	Compe-	The content	Code and name of the	As a result of mastering th	e discipline, the st	udents should:
№	tence code	of the com- petence (or its part)	competence acquisi- tion metric	know	be able to	possess
1.	UC-6	Able to determine and imple- ment the priorities of own activi- ties and ways to improve it on the basis of self- assessment and lifelong education	UC-6.1. Evaluates its resources and their limits (personal, situa- tional, temporary), optimally uses them for successful execution of the as- signed task UC-6.2. Determines the priorities of pro- fessional growth and ways to improve their own activities based on self-assessment according to the se- lected criteria UC-6.3. Builds a flex- ible professional tra- jectory using the tools of continuing educa- tion, taking into ac- count the accumulated experience of profes- sional activity and dynamically changing labor market require- ments	 basic concepts and professional terminology related to the specialty 33.05.01 Pharmacy; the system of training pharmacists under the specialty program 33.05.01 Pharmacy and the system of postgraduate education; directions of professional activity of the pharmacist in various fields of modern pharmacy and medicine; the possibilities of the socio-cultural environment of the educational organization; methods of effective time planning; potential strengths and weaknesses of the individual; effective ways of selflearning; criteria for assessing the success of the individual. 	 draw up long-term and short-term plans; analyze life situations and set priorities; organize your time; form a portfolio; plan your professional trajectory; plan your life for the period of study in an educational organization; identify obstacles that prevent success; assess your competitivenness. 	 skills to in- dependently identify mo- tives and incen- tives for self- development and education throughout life, while defining realistic goals for professional growth; skills in de- termining and implementing the priorities of their own pro- fessional activi- ties and ways to improve them on the basis of self-esteem and continuing edu- cation.

4. The content of the practice.4.1. Volume of the practice and types of academic work.

8. Material and technical support for mastering an academic discipline.

8.1. List of organizations used in the practice.

Structural subdivisions of medical and pharmaceutical organizations engaged in medical and pharmaceutical activities.

8.2. List of premises for classroom activities for the discipline

1. Classes for lectures and practical classes, equipped with multimedia and other means of training, allowing the use of simulation technologies, with standard sets of professional models (sets of protocols of clinical trials, formulary lists of LPU, price lists of distribution companies, sets of quality of life questionnaires), allowing students to master the skills and abilities, provided by professional activity, individually.

2. Simulation center "Educational pharmacy", equipped with simulation technics, which imitates the activity of pharmacy and its subdivisions (acceptance of goods, storage of goods, dispensing, pharmaceutical expertise of receipt) in the amount that allows students to master skills, provided by professional activity individually.

3. Rooms for students' independent work, equipped with computers with the ability to connect to the Internet and access to the electronic information and educational environment of the University.

- 8.3. List of equipment for classroom activities for the discipline
- 1. Multimedia complex (laptop, projector, screen, TV)
- 2. Computer class (15 computers) with installed applications and Internet access.
- 8.4. List of software
- 1. Online event platform "Webinar"
- 2. Yandex Browser
- 3. Reference system "Consultant Plus"
