# Summary of the working program of the academic discipline <u>«HYGIENE»</u>

General Educational Program of higher education (<u>specialist's degree programs</u>) <u>31.05.03 Dentistry</u>

#### Department: Hygiene

**1.** The purpose of mastering the discipline: formation of systemic knowledge on the methodology of preventive medicine, acquisition of hygienic knowledge and skills to assess the impact of environmental factors on human and population health, participation in forming the relevant competencies (UC-1, UC-2, UC-3, UC-4, UC-5, UC-6, UC-7, UC-8, UC-10, UC-11, GPC-1, GPC-2, GPC-4, GPC-7, GPC-8, GPC-13, PC-1, PC-3, P -5, PC-10, PC-12).

**2.** Position of the academic discipline in the structure of the General Educational Program (GEP).

**2.1.** The discipline refers to the core part of Block 1 of GEP HE (B1.O.38).

## 3. Deliverables of mastering the academic discipline and metrics of competence acquisition

Mastering the discipline aims at acquiring the following universal (UC) or/and general professional (GPC) or/and professional (PC) competencies:

	C	The content of the		As a result o	f mastering the ostudents should	
№	Compete nce code	competence (or its part)	Code and name of the competence acquisition metric	know	be able to	possess
1.	UC-1	Be able to carry out a critical analysis of problem situations based on a systematic approach, to develop a strategy of actions	IUC 1.1 Knows: methods of critical analysis and evaluation of modern scientific achievements; basic principles of critical analysis IUC 1.2 Able to: acquire new knowledge based on analysis, synthesis, etc.; collect data on complex scientific problems related to the professional field; search for information and solutions based on actions, experiment and experience IUC 1.3 Has practical experience: research of the problem of professional activity with the use of analysis, synthesis and other methods of intellectual activity; development of an action strategy for solving professional problems	methods of critical analysis and evaluation of modern scientific achievements; basic principles of critical analysis	acquire new knowledge based on analysis, synthesis, etc.; collect data on complex scientific problems related to the professional field; search for information and solutions based on actions, experiment and experience	methods of intellectual activity for the study of professional problems
2.	UC-2	Able to manage a project at all stages of its life cycle	IUC 2.1 Knows: methods of presenting and describing the results of project activities; methods, criteria and parameters for evaluating the results of project implementation; principles, methods and requirements for project work IUC 2.2 Able to: substantiate the	methods of presenting and describing the results of project activities; methods, criteria and parameters for	substantiate the practical and theoretical significance of the results obtained; check and analyze	methods of development of technical specifications of the project, implementation of profile project work

			practical and theoretical	evaluating the	project	]
1			significance of the results	results of	documentati	
			obtained; predict the	project	on; predict	
			development of processes in the	implementatio	the	
			project professional field;	n; principles,	development	
			calculate qualitative and	methods and	of processes	
			quantitative results, deadlines	requirements	in the project	
			for project work	for project	professional	
			IUC 2.3 Has practical	work	field; put	
			experience in: project		forward	
			management in the field of relevant professional activity;		innovative ideas and	
			assignment of tasks and		ideas and non-standard	
			encouraging others to achieve		approaches	
			goals; managing the		to their	
			development of the project's		implementati	
			terms of reference, managing the		on in order	
			implementation of profile		to	
			project work		implement	
L					the project	
3.	UC-3	Able to organize	IUC 3.1 Knows: the problems of	the problems	determine	tools for
		and manage the	selecting an effective team; the	of selecting an	the	developing a
		work of the team,	basic conditions for effective	effective	management	teamwork
		developing a team	teamwork; the basics of strategic	team;	style for	strategy
		strategy to achieve	human resource management,	organizational	effective	
		the goal	regulatory legal acts concerning	behavior	team work;	
			the organization and	models,	develop a	
			implementation of professional activities; strategies and	factors of formation of	team	
			activities; strategies and principles of teamwork	organizational	strategy; apply the	
			IUC 3.2 Able to: determine the	relationships;	principles	
			management style for effective	strategies and	and methods	
			team work; develop a team	principles of	of	
			strategy; apply the principles	teamwork, the	organizing	
			and methods of organizing team	main	team	
			activities	characteristics	activities	
			IUC 3.3 Has practical	of the		
			experience: participation in the	organizational		
			development of a team work	climate and		
			strategy; participation in	interaction of		
			teamwork, role allocation in	people in the		
$\vdash$			team interaction	organization		
4.	UC-4	Able to apply	IUC 4.1 Knows: the basics of	the basics of	experience	methods of
		modern communication	oral and written communication in Russian and foreign	oral and written	in translating medical	writing texts in Russian and
		technologies,	in Russian and foreign languages, functional styles of	communicatio	texts from a	Russian and foreign
		including in a	the native language,	n in Russian	foreign	languages,
		foreign language(s),	requirements for business	and foreign	language	methods of
		for academic and	communication, modern means	languages,	into Russian;	translation of
		professional	of information and	functional	experience	medical texts
		interaction	communication technologies	styles of the	in speaking	
			IUC 4.2 Can: express your	native	Russian and	
			thoughts in Russian and a	language,	foreign	
			foreign language in business	requirements	languages.	
			communication Russian Russian	for business		
			and foreign languages, related to	communicatio		
			professional activity; experience	n, modern		
			in speaking Russian and foreign	means of		
			languages. IUC 4.3 Has practical	information		
			IUC 4.3 Has practical experience in: writing texts in	and communicatio		
			Russian and foreign languages	n technologies		
	l		Russian and toreign languages	in teenhologies		

			related to professional activity;			
			experience in translating			
			medical texts from a foreign			
5.	UC-5	Able to analyze and	language into Russian IUC 5.1 Knows: the main	the main	analyza tha	ways of
5.	00-5	take into account	categories of philosophy, the	the main categories of	analyze the features of	ways of productive
				philosophy,	social	interaction in a
		the diversity of	laws of historical development,		interaction	
		cultures in the	the basics of intercultural	the laws of		professional
		process of	communication; the basic	historical	taking into	environment,
		intercultural	concepts of human interaction in	development,	account	taking into
		interaction	the organization	the basics of	national,	account
			IUC 5.2 Able to: competently,	intercultural	ethno-	national, ethno-
			intelligibly present professional	communicatio	cultural,	cultural,
			information in the process of	n	confessional	confessional
			intercultural interaction; observe		characteristi	characteristics

		lifestyle and prevention of dental diseases; forming behavior in children and adults aimed at			
		maintaining and improving the level of dental health			
21. PC-12	Willingness to participate in scientific research, analysis and public presentation of medical information based on evidence-based medicine and to participate in the introduction of new methods and techniques aimed at protecting public health and reducing dental morbidity.	IPC 12.1 Knows: The basics of evidence-based medicine; basic principles of medical research IPC 12.2 Able to: Search for medical information based on evidence-based medicine; critically evaluate modern methods of diagnosis, prevention and treatment of diseases from the standpoint of evidence-based medicine IPC 12.3 Has practical experience in: Development of algorithms for examination and treatment of adults and children with dental diseases in accordance with the principles of evidence-based medicine; search and interpretation of medical information based on evidence-based medicine; public presentation of medical information based on evidence- based medicine; partial participation in scientific research	the main sources of medical information based on evidence- based medicine; methods and forms of public presentation of medical information;	interpret the data of scientific publications; argue their choice of methods of diagnosis, prevention and treatment of dental diseases; prepare a presentation for public presentation of medical information, the results of scientific research	methods of developing algorithms for examination and treatment of adults and children with dental diseases in accordance with the principles of evidence-based medicine

#### 4. Volume of the academic discipline and types of academic work

	Labor	Labor intensity	
Type of educational work	volume in credit units (CU)	volume in academic hours (AH)	5 semester
Classroom work, including	1,8	66	66
Lectures (L)	0,4	14	14
Laboratory practicum (LP)*	-	-	-
Practicals (P)	1,4	52	52
Seminars (S)	-	-	-
Student's individual work (SIW)	1,2	42	42
Mid-term assessment			
credit			
TOTAL LABOR INTENSITY	3	108	108

Total labor intensity of the discipline is 3 CU (108 AH).

### 5. Sections of the academic discipline and competencies that are formed

N⁰	Competence code	Section name of the discipline
1.	UC-1, UC -4, UC -7, UC -8, GPC-4, GPC -7, GPC -8, PC-1, PC -3, PC -10, PC -12	Environmental health
2.	UC -1, UC -4, UC -5, UC -7, GPC -1, GPC -4, GPC -7, PC -1, PC -3, PC -10	Nutrition hygiene
3.	UC -1, UC -3, UC -4, UC -6, UC -8, GPC -8, GPC -13, PC -1	Occupational medicine
4.	UC -1, UC -3, UC -4, UC -5, UC -11, GPC -1, GPC -4, PC -1, PC -5, PC - 10, PC -12	Children hygiene
5.	UC -2, UC -3, UC -4, UC -5, UC -8, UC -10, UC -11, GPC -1, GPC -2, GPC -7, PC -1, PC -3, PC -12	Hospital hygiene
